

<b>Project Name</b>	MOIC Application Development		
<b>Client/Account Name</b>	Tapesstry		
<b>Reporting Period</b>	<b>From:</b>	04-Dec-20	<b>To:</b> 11-Dec-20
<b>Report Date</b>	11-Dec-20		
<b>Project Manager</b>	Vatsal Thakkar		

## 1 Executive Summary

### Project Kickoff

- Completed

SRS / HLD / Execution Plan

- SRS v 1.1 submitted for sign off. Awaiting business sign off

- HLD draft version will be shared on Monday next week

- Execution Plan v 0.3 attached along with this WSR.

--- Added % completion column to the execution plan as per Karthik's request and explanation

Part 1 - Functional in-depth clarity and SRS

- SRS submitted, awaiting sign off

- 4th functional call done this week with Dale to go over initial schema design. updated schema v 0.2 attached with this WSR

### Part 2 - Technical in-depth design and HLD

- Design Document WIP: first version will be submitted on Monday next week

- Design Document will get delayed, discussion with external application teams will start next week.

## Environments

- CD local environment setup completed. awaiting PostgresSQL version from Tapestry

- Development will start from Monday next week on local environment

- VPL access for offshore team is put in.

### Collaboration

- *Weekly Status Report*: emails for regular project communication

- Weekly check point 1 done last week.

- Weekly check point 2 scheduled for next week Monday. invite sent

## 2 Week's Major Accomplishments

WEEK'S MAJOR ACCOMPLISHMENTS
SBS finalization (one iteration done, final version 1.1 submitted for signoff)

HLD preparation, initial schema ready, requirements understanding to all team members

## Non Functional screens in Angular

Implementation approach and discussions, capturing details in HLD

## 2.1 List of Planned Work Accomplished

Deliverable/Milestone/Task Description	Responsibility (CD/Client)	Planned Date of Completion	Expected/ Actual Date of Completion	% Completion	Comments
SRS for signoff	CD / Tapestry	06-Dec-20	08-Dec-20	100%	Sent for signoff (version 1.1)
MOIC Schema - initial ready for discussion with external teams	CD	09-Dec-20	09-Dec-20	100%	Initial draft of Schema ready
HLD - design and implementation approach	CD	11-Dec-20	16-Dec-20	75%	Pending discussion with external teams. Needed for communication layer finalization
Non Functional Screens	CD	11-Dec-20	11-Dec-20	100%	Non Functional Screens in Angular have been completed

## 2.2 List of Un-Planned Work Accomplished (if any)

Deliverable/Task Description	Responsibility (CD/Client)	Date of Completion	Comments
SONAR Server setup locally	CD	10-Dec-20	We will use SONAR for code check

### 3 Plan for Next Week

### 3.1 List of work to be accomplished

Deliverable/Milestone/Task Description	Responsibility (CD/Client)	Expected Date of Completion (dd-mon-yyyy)	Comments
HLD route to Tapestry team for signoff	CD	18-Dec-20	Work in progress, pending discussion with external teams
MOIC DB schema - finalization	CD	18-Dec-20	Updates may be required based on discussion with external teams
VDI access for team	Tapestry	16-Dec-20	WIP
Communication layer discussion with other teams	CD / Tapestry	17-Dec-20	Scheduled for next week

#### 4 Issues & Dependencies

[illegible]

## 5 Risks

Risk Description	Risk Impact	Risk Raised Date	Risk Owned By	Severity (Critical/High/ Medium/Low)	Status (Open/Closed)	Resolution/Expected Resolution Date	Mitigation Action
------------------	-------------	------------------	---------------	--	-------------------------	--	-------------------

Discussion with external teams delayed	Delay in HLD signoff	11-Dec-20	Vatsal Thakkar	High	Open	Discuss and Conclusion so schema and API need can be finalized	Start Development as planned to not have impact on the overall completion dates
