Report Date	04-Dec-20	04-Dec-20					
Project Manager	Vatsal Thakkar						

## 1 Executive Summary

Project Kickoff

Formal project kickoff done on 24-11-2020.

- Project kick off PDF and MOM shared with Tapestry.

Team members for onboarding (name and email shared)

#### SRS / HLD / Execution Plan

- Execution Plan v 0.1 shared with Tapestry last week with task details - Functional discussions carried out last week and this week with Dale, SRS writing is in progress

- HLD writing will be started from Monday next week. The needed session with other teams (middleware, JOOR, SAP) will be scheduled next week

- Execution Plan v 0 2 is shared along with this WSR.

#### Part 1 - Functional in-depth clarity and SRS

- 3 discussion sessions done last week and this week.
- SRS will be shared with Tapestry on Monday next week for signoff

# Part 2 - Technical in-depth design and HLD - Discussion to be scheduled next week

- MOIC DB schema known 80%, will be finalized along with HLD

#### Environments

- CD local environment for development (ready for development team)
- Unit Testing will be done in CD environment using sample data set
- Integrated testing will be done on Tapestry environment

- Weekly Status Report, emails for regular project communication
- Weekly check point 1 done yesterday. This will be done every Monday at 9 am NY time

 Week's Major Accomplishments
Formal Project kick off and introductions, team onboarding
Functional Calls, overview of MOIC screens and purpose of each screen
Details and SRS writing (to be presented to business user for signoff next week) High level execution plan, dates projection for high level tasks and integrations
