Progress Check 5

MOIC Application Development

Prepared & Presented by

Name: Vatsal Thakkar

Email: vatsal.thakkar@cignex.com

Title: AVP – Delivery

Role: Program Management

Agenda

1. **Project Plan – Check Dates & achieved milestones**

2. **Development Progress**

3. **Dependencies / Blockers / Mitigation**

4. **Team Members for Onboarding**

5. **Q&A**

Project Plan – Dates

Key Milestones	Planned Start	Planned End	Remarks	Deliverables
Project Kick Off	23-Nov-2020	23-Nov-2020	Project Kickoff	Kickoff PDF / PPT
Requirements Signoff / Design Signoff / Environment & Access setup	24-Nov-2020	11-Dec-2020	Conclude on all integrations through discussions with other teams (ESB / PMDB / A360 / ECV / Centric)	SRS HLD Execution Plan
Non Functional Screens (as per the mockups from BRD)	24-Nov-2020	11-Dec-2020	Design the screens of MOIC in Angular (this will be non functional screens)	Non Functional Screens
MOIC DB Design	24-Nov-2020	11-Dec-2020	Database schema and creation	DB scripts
Development & Unit Testing	14-Dec-2020	22-Jan-2021	Coding (MOIC functionalities)	Codebase of MOIC, Test Cases
Quality Assurance & Integration Testing	25-Jan-2021	12-Feb-2021	QA & Bug Fixing	QA signoff
Tapestry UAT	15-Feb-2021	19-Feb-2021	UAT and Handover to Tapestry	All relevant documents, MOIC final codebase
Hypercare Support	22-Feb-2021	5-Mar-2021	Hypercare support	Bug fixing and Training as required

Development Progress

Download Reports from MOIC

- Total 8 reports
  - Development completed: 7
  - WIP: 1
  - ETA: 6th Dec
  - Ready for internal QA: 8th Dec

Internal APIs (development)

- Total 6 screens, average 6 APIs per screen
  - Development completed: 2 screens
  - WIP: 2 screens
  - ETA: 8th Dec

Internal APIs (integration with screens)

- Total 6 screens
  - WIP: Config Screen
  - WIP: Overview Screen

Upload data through excel into MOIC

- Total 4 reports for upload
- Upload Customer Data into MOIC (from Config screen) – completed
- Upload MOQ list (from MOQ screen) – WIP (ETA: 6th Dec)

External Integrations

- Inbound from SAP into MOIC - WIP
- Outbound from MOIC into SAP - completed

Dependencies / Blockers / Mitigation

DEPENDENCIES:

- VDI access
- Sample data set from external applications. Needed for field level mapping and MOIC schema finalization
- ETL Team connect (for SAP inbound of customer data)
- ESB Team connect (for Joor inbound and outbound of order data)
- PMDB Team connect (for inbound of product master data)

BLOCKERS:

- No blockers as on date but conclusion with external teams is becoming critical.
- Sample Data sets

MITIGATION:

- Use local environment for development.
- Testing in local against sample data.

Team Members for Onboarding

Onboard:

- Vatsal Thakkar – PM
- Mehul Bhatt – UX / UI
- Tina Agarwal – BA
- Safee Mogal – Development
- Soumen Sain – Development
- Khem Chand – Development
- Shanti Chatri - QA

Q & A

QUESTIONS:

- External team's SPOC

    - Joor – Mauro Marroncelli
    - SAP – Jagan Vuppala
    - PMDB – Ravinder Parmar
    - ESB – Ravinder Parmar
    - Infra Support – Mohan
    - ETL -
