	Weekly Status Report`	**CIGNEX DATAMATICS** Making Open Source Work™

Project Name	MOIC Application Development		
Client/Account Name	Tapestry		
Reporting Period	**From:** 12-Dec-20	**To:**	18-Dec-20
Report Date	20-Dec-20		
Project Manager	Vatsal Thakkar		

1   **Executive Summary**

Project Kickoff
- *Completed*

SRS / HLD / Execution Plan
- *SRS v 1.1: We received the business sign off. This will be the baseline version for requirements.*
- *HLD draft versions are shared with Tapestry team.*
- *-- Integration with external applications discussion is WIP. These will be captured as we get the details concluced.*
- *Execution Plan v 0 4 attached along with this WSR.*

Part 1 - Functional in-depth clarity and SRS
- *MOIC functional requirements are freezed based on the sign off from business users.*
- *Non functional screens of MOIC developed in Angular. Attached with design document.*

Part 2 - Technical in-depth design and HLD
- *HLD v 0.3 is shared with MOIC team*
- *High level design discussion with Mohan and team done*
- *MOIC updated schema shared with Tapestry team*
- *Connect 1 with Joor team*
- *-- Joor APIs documentation shared with us for attribute level mapping*
- *-- Joor will give us access to their sand box*

Environments
- *VDI access for offshore team request is sent*
- *Tools and software with versions needed on VDI is shared with Tapestry team*

Collaboration
- *Weekly Status Report, emails for regular project communication*
- *Weekly check point 2 done last week.*
- *Weekly check point 3 scheduled for next week Monday, placeholder sent, link will be sent*

2   **Week's Major Accomplishments**

SRS sign off from business users
HLD draft version completion and submission to Tapestry team (HLD v 0.3)
Connect with Mohan and team for design and environment related discussion
Development start with project structures for Inbound and Outbound, Postgres DB and initial set up

2.1   **List of Planned Work Accomplished**

Deliverable/Milestone/Task Description	Responsibility (CD/Client)	Planned Date of Completion	Expected/ Actual Date of Completion	% Completion	Comments
SRS sign off received	CD / Tapestry	06-Dec-20	11-Dec-20	100%	Signoff received on 11-12-2020
HLD - draft version submission to Tapestry	CD	07-Dec-20	09-Dec-20	80%	Drafr design v 0.3 submitted to Tapestry team, integrations with external applications detail is WIP
Environment and VDI need	CD / Tapestry	11-Dec-20		75%	All team member names, email shared. List of tool and software with versions needed on VDI shared for golden VDI
Development start in local	CD	14-Dec-20	21-Jan-21	5%	Development started in local environment. Postgres DB in place, project structure and SVN control in place

2.2   **List of Un-Planned Work Accomplished (if any)**

Deliverable/Task Description	Responsibility (CD/Client)	Date of Completion	Comments
Connect with PMDB team	CD	14-Dec-20	Discussion on overall project structure

3   **Plan for Next Week**

3.1   **List of work to be accomplished**

Deliverable/Milestone/Task Description	Responsibility (CD/Client)	Expected Date of Completion (dd-mon-yyyy)	Comments
HLD completion including integrations with (Joor, SAP and PMDB)	Tapestry / CD	25-Dec-20	Work in progress, pending discussion with external teams
Continue development activities	CD	21-Jan-21	Development
VDI access for team	Tapestry	16-Dec-20	WIP
VDI check and access control for being able to deploy	CD / Tapestry	24-Dec-20	Scheduled for next week

4   **Issues & Dependencies**

Issue/Dependency Description	Affected Deliverable(s)/ Task(s)	Issue Raised By (CD/Client)	Issue Raised Date (dd-mon-yyyy)	Issued Owned By (CD/Client)	Priority (Critical/High/Medium/Low)	Status (Open/Closed)	Resolution	Resolution Date (dd-mon-yyyy)

5   **Risks**

Risk Description	Risk Impact	Risk Raised Date	Risk Owned By	Severity (Critical/High/Medium/Low)	Status (Open/Closed)	Resolution/Expected Resolution Date	Mitigation Action
Discussion with external teams delayed	Delay in HLD signoff	11-Dec-20	Vatsal Thakkar	High	Open	Discuss and Conclusion so schema and API need can be finalized	Start Development as planned to not have impact on the overall completion dates
